KYGO

DISPALY STANDS

Precision Crafted. Built to Perform.

KYGO assigned to PEBRO the creation of Kygolife POS display!

KYGO, one of the most hyped electronic artists on the planet with millions of plays on SoundCloud and YouTube, assigned to PEBRO the creation of the Kygolife display where MUSIC MEETS FASHION!

Gotta make the show!

PEBRO faced successfully the challenge to design and produce the kygolife display that efficiently can support KYGO's vibes.

Kygo Life is a classic sound and fashion line from KYGO.

With a Scandinavian look and feel, the items are sophisticated yet playful.

The display is a flexible, well-designed stand with a 360° access. Pebro's team of designers working side-by-side with the engineers designed a creative, eye-catching display out of metal, wood and leather, ensuring optimum quality.

Because at PEBRO our commitment to quality is second to none and we have the track record to prove it.

We serve customers from across the globe, giving them the attention and care their products deserve, while always seeking to move faster and more efficiently.
